### **Credit Unions And The Year 2000**

Enclosed is information from the National Credit Union Administration about the Year 2000 compliance issue. Additional information may be available on the Internet at sites from the Federal Financial Institutions Examination Council (FFIEC) and other government agencies. As an example, we have enclosed a copy of the FFIEC Internet information. If you do not have access to the Internet, you might check with other credit unions or the Washington Credit Union League to obtain additional reference information.

The Division of Credit Unions is increasing its supervision of Year 2000 compliance. Next week we will be sending out a questionnaire to evaluate each credit union's progress on its compliance plan.

If you have any questions, please give us a call at the Division.
